

10.2 MP digital camera

10.2 megapixel CCD
5X optical zoom lens
2.7" LCD screen
dual image stabilization

The TL9 from SAMSUNG is a digital camera that gives you more. Rock out to your favorite music and watch movies and videos. It's an MP3 player, personal multimedia player and digital camcorder, in one super-slim camera. With 10.2 MP, you'll get great quality photos. And with the amazing 5x optical zoom, you'll get closer to the action than ever before. It also has cool analog gauges that track its remaining battery life so you're never caught by surprise.

10.2 megapixel CCD

10.2 megapixels delivers a high-quality picture, even for supersized images. A robust mounted image processor creates rich color gradation, fast and clear high quality picture processing.

5X optical zoom lens

A slim, efficient design makes the mounted inner zoom lens easier to use and carry. A special coating on both sides of the lenses prevents false color and distortion and delivers outstanding picture quality.

2.7" LCD screen

It's easy to take pictures with the large 2.7" LCD. And with advanced contrast and color reproduction you'll be able to take and edit your photos effortlessly.

dual image stabilization

Get twice the technology for crisp, clear images. Dual image stabilization eliminates the blur caused by camera shake and delivers clear, crisp images every time, even under difficult lighting situations. Integrating the best lens shifting mechanisms of Optical Image Stabilization (OIS) with the sophisticated algorithms of Digital Image Stabilization (DIS), Dual Image Stabilization; another superior SAMSUNG innovation, corrects even the tiniest of shakes. play video

personal multimedia player with MP3 player

Easily listen to your favorite MP3 files or watch your favorite video and movies on the large 2.7" high-resolution display. SRS surround sound mode and 7 sound effects provide a rich and realistic listening experience. Take photographs, play pictures and run a slideshow and listen to music all at the same time.

beauty shot

Show the best that you can be. It's like having a personal makeup artist

put an end to lost images

With the Recycle Bin Function, lost photos become a thing of the past. Turning on the function lets your camera create a trash folder that will hold your deleted images until the memory card is erased, allowing you to retrieve accidentally erased images, and eliminating the "oops!"

high sensitivity ISO 3200

The TL9 supports ISO 3200 high sensitivity to give you crystal-clear pictures with just the right amount of brightness, even when shooting moving subjects under less-than-perfect lighting conditions.

take portraits like a pro

With the Face Detection function, you can now take better portrait pictures with ease. The function is able to distinguish faces from the rest of the background and automatically focus on them. It can then adjust the brightness of the faces so that your portraits come out perfect every time.
